A Story of Courage, Resilience, Kindness, and Dignity

In this original version, inspired through the tradition of his ancestors, Mychal Wynn has written a story of richness of culture and heritage that was denied the eagles who knew little about who they were, where they came from, and why they were different. Mychal takes us on a powerful, spiritual journey as the eagles gain their self esteem and self image when they encounter another eagle who tells them of their culture and heritage. Within their differences is embodied their special gift of flight, their special ability to soar through the clouds.
