

Mychal Wynn - Staff & Community Conversations

Find out why teachers, parents, and community leaders love Mr. Wynn's authentic conversations

"Mr. Wynn engaged our teachers, parents, and community leaders in courageous conversations about increasing Black male achievement. Rather than lecturing or preaching, Mr. Wynn used our district and national data to drive the conversations. He presented real stories of Black males who were inspired to own the learning process and who serve as shining examples of Black male potential."

Mr. Wynn speaks through the experiences of an educator and parent and serves as an inspiration and affirmation of what is possible."

– Donna McBride, Ed.D
Former School Board Member
Henry County Schools (GA)
